THE BASIC STEPS IN MAKING A FINE ENGLISH PIPE

A

From the "Top Quality" Section of the briar root, the rough block (A) is cut.

B

After many weeks of baking and curing, the block now has the tobacco hole drilled, and upper part of bowl (B) shaped.

C

Next the Shank is carefully rounded out from its rough form (C), the pipe then goes to a Specialized pipe craftsman.

D

The bottom of the bowl is shaped (D) leaving two small wings of briar, which are removed by hand to completely form the pipe.

E

It is now graded once again as to quality, the finest being set aside for the Famed English BBB Brand. Finally the pipe bowl is sanded 4 times and fitted with a handsome ebonite stem, polished and buffed to a glowing finish.

F

The stems are then fitted with a BBB removable condenser-tube that is easily cleaned, it prevents moisture and impurities from entering your mouth.

BBB double tenon on the stem means extra stem strength for years of service.

VIRGIN

STOCK NO. P90000

Because the most particular pipe smokers in the world like their pipes in natural Briar Color, the finest Rock-Hard specimen grain bowls are used for the BBB Own Make Virgin. They break-in like a dream.

As you smoke your most perfectly made pipe, it begins to color, finally turning from pale blonde to tawny golden russet; the pride and joy of the pipe connoisseur.

Years of slow growth have made the Corsican briar the finest in the world. Months of special aging and curing have mellowed the briar to the peak of smoking perfection, and hours upon hours of superb English Craftsmanship have done their part in creating the world's most perfect pipe.

The splendid joy of smoking a BBB Own Make Virgin will last for years and years.

Each pipe is superbly fitted with a mouthpiece of finest English Ebonite which bears the famous BBB inlaid metal emblem. Beautifully packed in a superb English Luxury Pipe Glove and Red Label Gift Box.

B **STERLING SILVER**

STOCK NO. P98000

Best loved by those veteran pipe smokers, who have enjoyed pipe smoking for years, is the beautiful BBB Own Make Sterling Silver mounted briar. This is the old original pipe on which the brand built its world-wide reputation.

The wonderful sweet smoking Corsican briar root is finished in a beautiful rich walnut that brings out the beauty of the wonderful grain of the briar. The special master-silversmiths fashioned a handsome Sterling Silver mounting on each pipe. This not only makes the pipe a distinctive and beautiful pipe to behold, but it reinforces the pipe and prevents the shank from breaking.

Here is a pipe with all its superior features of fine briar, fine English traditional hand-craftsmanship and skill that is not only a thing of beauty and a delight to smoke... but it is recommended as one of the hardest pipes in the world. A pipe that can stand up to a real outdoor man's idea of what a pipe should be.

Many have lasted for 20 years and more! If you are a real pipe smoker and you want a pipe that will give you many years of long hard service and sweet smoking joy... the Handsome BBB Own Make Sterling Silver cannot be equalled. Each pipe, with all its superior features, is packed in a beautiful Soft English Pipe Glove and striking Blue Label Gift box.

C **THORNEYCROFT**

STOCK NO. P88000

Beautifully balanced, superbly light-weight and mellow smoking...these qualities have made the BBB Own Make Thorneycroft famous. Its unique appearance and smoking quality is the result of a special process of sand-erosion that brings out the beautiful grain of the briar in superb relief.

First, tough, age-old Corsican briar is carefully selected. Then, after a lengthy curing process, the bowls are carefully hand-turned into 29 authentic English shapes. Now comes the special process of sand-erosion that makes this BBB Own Make Thorneycroft so unique. The soft parts of the briar are literally blasted away leaving a hard bowl of unusual beauty, durability and sweetness. Then the pipe is fitted with a mouthpiece of finest English Ebonite, inlaid with the famed BBB metal emblem, and a special dry smoking condenser tube.

The BBB Own Make Thorneycroft is a pipe that is manly, delightfully sweet smoking and cannot be equalled for pleasant, companionable service over the years. Each pipe with all these outstanding English features is packed in a beautiful soft English Pipe glove and Orange Label Gift box.
